

# God speaks to us in our heart!

“Those who are led  
by the Spirit of God  
are children of God.”  
Rom 8:14

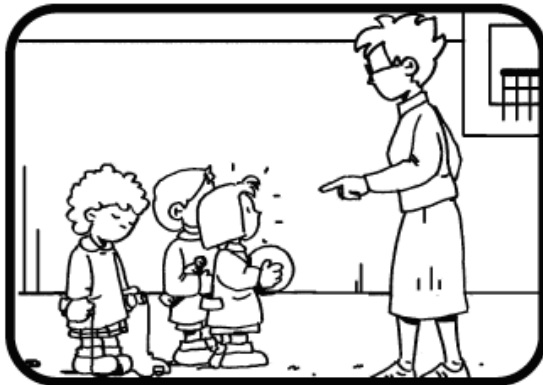

One day Jesus was walking along the Jordan River, where John was telling many people to listen to God and not to sin anymore. As a sign of their change of heart, he asked them to go into the river and he baptized them. Jesus went into the water, too, and when he was baptized, the Spirit of God

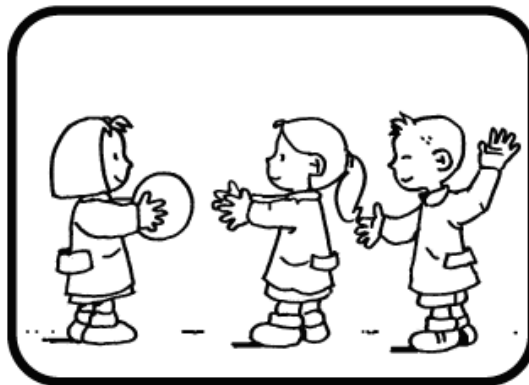

appeared over him like a dove and a voice came from heaven saying, “This is Son whom I love very much!” Jesus is the Son of God! God loves us immensely, too. We can call him, “Father!” He wants us to be happy and he gives us suggestions in our heart of what we should do in each moment. If we listen to his voice and say No to the “old man,” who wants to stop us from loving, then our hearts will be full of happiness!

Eva from Texas tells her experience: “I do lots of acts of love, but my favorite one was when I was in the playground at school. I was playing with my classmates but they didn’t want the children of the other class to play with us.

One of the teachers came and told us we were being very selfish. I knew she was right and I thought about it.

Then I called the children of the other class to play with me and I felt very happy.

When I looked around I saw that many boys and girls were playing with one another and that made me really, really happy.
